PROBLEM STATEMENT

It's quite cumbersome to look for
new residence by going from one
area to another

SOLUTION

A space where property owners can list their spaces for sale or rent for customers to view at the comfort of their home

MINIMAL VIABLE PRODUCT

view and buy property

Filter the choice of
property

Lease and rent
available apartments
and land

DEMO

TECHNOLOGIES USED

CSS

HTML

Bootstrap

Java Script

J-query

CHALLENGES FACED

Implementing the javascript filter search

FUTURE PLANS

Create a chat-bot where the owner and the customer can have a dialogue.

Enable an online payment system.

Incorporate customers to advertize their properties as we sale on their behalf.
